Dear Mr. Rached,

The Georgia Auctioneers Commission reviewed your course for consideration as a continuing education course for Georgia auctioneers at its meeting held on April 29, 2013. After review of your course material, the Commission voted to approve the course as continuing education only. Georgia auctioneers may attend your course and receive credit toward the completion of their continuing education requirements for renewal of their licenses. Auctioneer licenses expire on February 28, 2014, and any continuing education required must be obtained prior to that date in order to renew the license.

Since the Commission does not issue licenses to continuing education program providers, please feel free to use this letter as validation of the Commission's approval of the course for continuing education.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Lindsey".
